

Planning the workforce and global health system strengthening – Year of the Health and Care Workers Seminars

Health Education England is delighted to invite you to a series of seminars, focusing on the importance of strengthening the health workforce internationally in support of the World Health Organization's (WHO) Year of the Health and Care Workers (YHCW) programme. The first of which will be held on 13 December 2021, 09:30 – 10:30 GMT. Please register below to secure your place.

Health Education England

HEE is the lead strategic workforce planning organisation supporting the NHS in England. It is responsible for providing system-wide leadership and oversight of the NHS' workforce planning, education, and training. HEE builds on the NHS' seventy years of experience delivering universal healthcare to provide health system strengthening internationally.

The Year of the Health and Care Workers (YHCW) Programme

The WHO and Health Education England (HEE) are working in collaboration internationally, to develop the next generation of Human Resources for Health (HRH) system leaders. The desire is to create a lasting impact in strengthening health systems in partner countries.

Together, the WHO and HEE are hosting a series of four open access seminars. Open to all, these explore the powerful impact that effective workforce planning can have on health systems throughout the world.

Seminar One

An introduction to systemic workforce planning

13 December 2021 - 09:30-10:30am GMT

Seminar One overview

The first of four seminars will bring together international leaders in the field of workforce planning and transformation.

It will address the importance of systemic workforce planning in developing strong health care systems.

Jim Campbell, Health Workforce Director, World Health Organization

Jim Campbell is the Director of the Health Workforce Department at the WHO and he is widely recognised as a Human Resources for Health Champion. His work at the WHO has included overseeing the development of WHO's 'Global Strategy on Human Resources for Health: Workforce 2030.'

Dr Navina Evans, CEO of Health Education England

Dr Navina Evans joined HEE on 1 October 2020 from East London NHS Foundation Trust (ELFT), where she had been Chief Executive since 2016. She has over twenty years of clinical experience in psychiatry, medicine and paediatrics and previously held the positions of Deputy Chief Executive and Director of Operations.

Rob Smith, Director of Workforce Planning and Intelligence for Health Education England

Rob Smith has worked for the NHS for over 34 years with an initial background in finance before moving into the world of workforce planning and strategy. He joined Health Education England in 2012 and was co-author of the first ever national 'workforce plan for England'. In 2015, he led HEE's hosting of the 15th International Workforce Collaborative conference before becoming the National Director of Workforce Planning and Intelligence for Health Education England in 2017.

Professor Ged Byrne, Director of Global Health Partnerships for Health Education England

Ged Byrne will be Chairing this seminar. Ged Byrne is a surgeon by background and now directs the Global Health Partnerships directorate at HEE alongside his clinical and teaching commitments. In this role, Ged is responsible for international ethical recruitment, the development of international placements and partnerships, and workforce government to government partnerships.
