DEPARTURE DATE: FRI. 19TH SEPT., 2025

OBI WALI INTERNATIONAL CONFERENCE CENTRE
Chief G.U. Ake Road, City Centre, Port Harcourt

CONFERENCE INVITATION

The Nutrition Society of Nigeria (NSN) invites Nutritionists, Dietitians, Food Scientists and related professionals from tertiary institutions of learning, health institutions, research institutes, government ministries and agencies, industries, organised private sector, students and Non-Governmental Organisations (NGOs) to its 55th Annual Scientific Conference and General Meeting holding in Port Harcourt, Rivers State.

ABOUT PORT HARCOURT

Welcome to Port Harcourt, the heartbeat of Rivers State and the pride of Nigeria's South-South region. Fondly known as the "Garden City," Port Harcourt is a vibrant metropolis where commerce, culture, and community converge. As the capital of Rivers State, it stands tall as a gateway to the Niger Delta and a key player in Nigeria's oil and gas economy.

Port Harcourt is more than just an industrial hub; it is a city alive with stories, diversity, and innovation. The city's rich cultural heritage is drawn from the colorful mosaic of Rivers State's ethnic groups, including the Ikwerre, Kalabari, Okrika, Ogoni, Ekpeye, Ndoni, Etche, and others, who together shape its unique identity. From lively markets and waterfronts to cultural festivals and culinary delights, Port Harcourt offers visitors an authentic taste of the Niger Delta spirit.

With its scenic landscapes, energetic business environment, and welcoming people, Port Harcourt provides the perfect backdrop for connection and collaboration. As we host the 54th Annual General Meeting and Scientific Conference of the Nutrition Society of Nigeria (NSN), we invite you to explore a city that balances its historic roots with a bold vision for the future.

Come experience Port Harcourt where Rivers State's dynamism comes to life.

Welcome to #PortHarcourt2025!

SUB-THEMES

- Climate-Smart Nutrition: Strengthening Local Food Systems for Resilient and Improved Maternal and Child Health
- Leveraging Technology and Digital Solutions in Nutrition Interventions
- Enhancing Micronutrient Deficiencies Control Programmes Through Multisectoral Strategies and Interventions
